

Informa Global Markets Forms Alliance with FactSet

April 6, 2017

BOSTON, April 6, 2017 /PRNewswire/ -- Informa Global Markets (IGM), and FactSet, a global provider of integrated financial information, analytical applications and industry-leading service formed a new alliance to make IGM's market intelligence on credit markets, fixed income, and foreign exchange available to investment professionals through FactSet.

"The experience, precision and knowledge of our analysts is just one of the things that sets us apart," said **Terry Wilby**, Head of Research, Informa Financial Intelligence. "Having IGM's authoritative content incorporated into the FactSet universe will help investment professionals access the up-to-date and independent market intelligence they require to perform effectively and efficiently."

IGM, part of Informa Financial Intelligence, a leading provider of solutions for financial services professionals, provides independent intelligence on the credit, rates, and foreign exchange markets around the globe. IGM's team of 70 analysts provides market insight from production centers in New York, London, Tokyo, Singapore and Hong Kong.

"FactSet is committed to delivering the world's best insight and information to investment professionals," explained **Linda Clarkson**, Director, News, Research, Filings and Transcripts for FactSet. "IGM further enhances our news offering by providing detailed deal commentary and credit market analysis in addition to global fixed income and foreign exchange news."

The FactSet platform consolidates all the analytics and data financial professionals need to monitor global markets, public and private companies, and equity and fixed income portfolios in a single, intuitive and customizable interface.

The addition of IGM's content will allow professionals researching the credit markets to evaluate market intelligence on bond pricing, market mandates, distribution and analysis of specific bond categories (e.g. Investment Grade, High Yield, Corporates, etc.). IGM will also provide technical analysis of fixed income instruments, currency pairs, commodities and equities, outlining support and resistance levels; real-time government bond and currency flow updates, trading ideas, central bank general policy outlooks and much more.
