

FactSet Unveils 2025 APAC Buy-Side Forum: Shaping the Future of Finance in Hong Kong, Tokyo, Sydney, and Singapore

October 15, 2025

FactSet spotlights AI-powered solutions as APAC financial markets navigate record volatility and regulatory shifts

NORWALK, Conn., Oct. 15, 2025 (GLOBE NEWSWIRE) -- FactSet (NYSE: FDS | NASDAQ: FDS), a global financial digital platform and enterprise solutions provider, today announced its [2025 Buy-Side Forum](#)—a four-city series addressing how AI-driven strategies and advanced data solutions are empowering financial professionals amid unprecedented market volatility and fast-changing regulations across the Asia-Pacific region. The series launches in Hong Kong on Nov. 4, with stops in Tokyo (Nov. 6), Sydney (Nov. 11), and Singapore (Nov. 13).

“APAC’s financial markets are at a turning point, where the ability to harness AI and data is no longer a competitive advantage—it’s a necessity,” said Rob Robie, Executive Vice President and Head of Institutional Buy Side at FactSet. “FactSet is empowering clients to lead in this new era by delivering the tools and insights they need to make faster, smarter decisions, manage risk proactively, and stay ahead of regulatory change. The APAC Buy-Side Forum is an opportunity to showcase how we’re driving innovation and helping our clients succeed in one of the world’s most dynamic regions.”

The APAC Buy-Side Forum will feature in-depth sessions and expert panels exploring how front and middle office clients are leveraging FactSet’s solutions to address today’s most pressing challenges:

- **AI for Risk, Speed, and Compliance:** Discover how asset managers are utilizing predictive analytics and automated risk monitoring to manage rapid capital inflows—such as real-time credit risk tracking amid Japan’s private equity boom—and streamline compliance as regulations tighten across markets like Singapore.
- **RegTech Innovations:** Explore best practices for cross-border investments, powered by AI-driven reporting and monitoring for digital assets, ESG, and other regulated areas as new rules reshape investor operations across Southeast Asia.
- **Algorithmic Trading and Execution:** Learn how machine learning is advancing trade execution speed and resilience, especially as transaction volumes surge and volatility rises in Hong Kong, Australia, and beyond.
- **Market Data Infrastructure Transformation:** Gain insights into cloud adoption for real-time data analysis, integration of alternative data (from supply chain to social sentiment), and the race for low-latency connectivity—crucial for capturing opportunities in rapidly shifting APAC markets.
